

SOCIAL SOLUTIONS

CARBON FOOTPRINT

Social Solutions International, Inc., founded in 2005, is a woman-owned consulting firm dedicated to enhancing the health and well-being of underserved populations through mission-driven diversity, social responsibility, and quality. It provides tailored solutions that promote responsible citizenship, respect, and an improved quality of life on a global scale.

Methodology

Social Solutions' carbon footprint has been prepared ensuring the principles of Relevance, Completeness, Consistency, Transparency and Accuracy, and following the calculation and reporting methods and principles that appear in the:

- GHG Protocol: A Corporate Accounting and Reporting Standard.
- GHG Protocol: Corporate Value Chain (Scope 3) Accounting and Reporting Standard.
- Guidelines for the development of national GHG inventories.

Reporting period: This carbon footprint has taken 2022 as the time limit, from January 1 of 2022 to December 31 of 2022.

Reporting limits: Scope 3 emission sources have been considered since Social Solutions does not present activities that belong to Scopes 1 and 2 according to the methodology established by the GHG Protocol.

Results

Overall GHG emissions: 628.62 tCO₂eq

Scope 1: Not applicable

Scope 2: Not applicable

Scope 3: 628.62 tCO₂eq

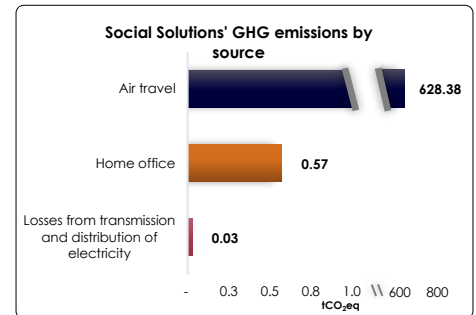

This is the short version of the detailed carbon footprint report prepared by Green Initiative.
